

CATALOGUE 2024

Our company and team

Established in 1992, Buki France is today a key player on the toy market. Our mission? Offering educational toys so that children can learn and have fun at the same time! In our French offices, we work on the conception and development of the different products that are released every year.

Our products

BUKI is specialized in scientific toys and arts & crafts kits for children of all ages. Our sets will encourage children to develop their curiosity and their creativity! Our kits are aimed at every child: little ones with products that offer an initiation to science, colours, shapes, time and logic; and older ones with scientific kits and creative toys.

In the world

Buki toys are not only distributed in France, but also in many countries inside and outside Europe, such as Belgium, Spain, Italia, Romania, Bulgaria or Switzerland, Canada or most of the Latin American countries. Our goal? Proposing our toys all over the world by establishing a relationship of trust with our commercial partners.

MINI LAB Solar energy

3016

Assemble the parts of the car with the screwdriver, and then make it move with solar energy.

8+

INCLUDES
STEP-BY-STEP
ASSEMBLY
INSTRUCTIONS

BUILD
YOUR OWN
SOLAR CAR

MINI LAB Crystal

3006BLU

A kit for growing a large, colourful crystal easily.

Includes the crystal powder, the growing beaker and illustrated colour instructions.

8+

GROW YOUR
OWN CRYSTAL

MINI LAB Sticky Slime

3007

A kit for making slimy mixtures safely. 6 activities, including slime, bouncy ball, fart paste...

Includes 6 slime powder sachets and instructions illustrated in colour for the activities.

8+

6
ACTIVITIES

MAKE SLIMY MIXTURES

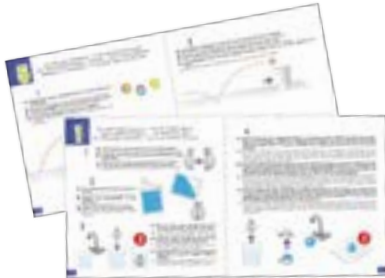

MINI LAB Electronic

3008

Assemble the no-solder components and discover 6 activities to make your own alarm. Includes real components (light sensor, buzzer, transistors etc.) and instructions illustrated in colour for the activities.

BUILD YOUR ALARM

6
ACTIVITIES

MINI LAB Bouncy balls

3009

A kit for making colourful bouncy balls. Some even glow in the dark! Includes 5 sachets of elastic powder and instructions illustrated in colour with activities.

MAKE YOUR OWN
COLOURED BALLS!

6
ACTIVITIES

MINI LAB Bath balls

3010

A kit for making colourful bath balls. In the water, the balls make bubbles and colour your bath.

6
ACTIVITIES

MAKE FIZZY BOMBS FOR
YOUR BATH

MINI LAB Fluo & Glow

3011

With this set, you can conduct experiments that glow in the dark. Make your own lava lamp, invisible ink, phosphorescent slime, etc.
Includes many accessories, such as 3 colourings and a UV lamp.

8+

2 included

6

3 700802 102724

CREATE MIXTURES
THAT GLOW
IN THE DARK

6
ACTIVITIES

MINI LAB The chemistry of colour

3013

A kit for carrying out amazing colour activities: lava lamp, magic soup, density cocktail...
Contains: test tube, syringe, 3 colourings, coloured tablets and powdered red cabbage.

8+

6

3 700802 103097

6
ACTIVITIES

DISCOVER THE AMAZING
SECRETS OF COLOUR

MINI LAB Space

3014

A kit for discovering space and observing the moon and stars: constellations map, solar system poster, lunar calendar...

Contains: a rocket ready for lift-off and powder to create a bouncy meteorite.

8+

6

3 700802 103103

6
ACTIVITIES

EXPLORE THE GALAXY

MINI LAB Magic science

3015

A set for performing magic tricks explained by science. Make objects levitate with static electricity, change liquid water into a solid and discover optical illusions. Contains: magic sand which dries in the wink of an eye.

MAGIC
EXPLAINED
SCIENTIFICALLY

10
TRICKS

MINI LAB Yucky science

3017

A kit containing six disgusting experiments: slimy worms, dripping eyes, bouncy poop...

Contains: beakers, pipette, measuring spoon, sodium alginate, colouring...

DISGUSTING
EXPERIMENTS

6
ACTIVITIES

Chemistry - 75 experiments

8363EU

A chemistry set with 75 safe, chemical-free experiments! Perform fun scientific experiments with common household products like salt, vinegar and flour!

8+

3 700802 100355

Chemistry -150 experiments

8360

150 risk-free chemistry experiments! Experiment with mixtures using kitchen products such as eggs, vinegar, oil...

Includes a flask, test tubes and protective goggles.

Why does oil float on water? How does bicarbonate of soda react with vinegar? How do they make fizzy liquids?

8+

4 893338 083601

Chemistry lab 200 experiments

8364

Become a junior chemist with this multi-purpose laboratory: mixer, funnel, dripper, pourer, protective mat, and more.

200 experiments using safe ingredients found in any kitchen: density, mixtures, acidity, acid-alkali reactions, and more.

200
experiments

Wizard chemistry 30 experiments

8366

A cauldron to conduct 30 magical experiments and become a real wizard! Activate the light effects and smoke and use the magic wands to surprise your audience.

By pouring different ingredients, you will create amazing chemical reactions!

Each wand has a secret hatch to hide powder or liquid. 3 colourings and 5 chemicals are provided to help you complete the experiments successfully.

30
magical
experiments

Magic smoke

Light effects

Potion mixer

Micro chemistry 30 experiments

8367

30 experiments for an immersion in the microscopic world: instant crystals, polymerisation, acid-base reaction etc.

The kit contains three magnifying lenses to place on the workstation or the goggles for seeing in close-up. The workstation lights up from below. Many accessories included: pipettes, tweezers, measuring cup, Petri dishes, reagents...

3 700802 102847

Buki
France

Experimental Kits

Mega fluo & glow

2162

Discover 15 activities to try in the dark.

Light the UV lamp to admire fluorescent colours.

Make slime and phosphorescent bouncy balls that glow in the night.

8+

2 included

6

3 700802 102854

15 activities to try in the dark

UV Lamp

Mega sticky slime

2160

Discover 20 slimy activities involving different types of texture and hundreds of combinations: phosphorescent, gold, fluffy, ultra-slimy...

Includes: pre-dosed sachets to avoid mistakes in the recipe.

8+

6

3 700802 102212

20 sachets of slime

SLIMY WORMS

GLOWS IN THE DARK

ULTRA-STICKY!

Mega bouncy balls

2164

Discover 12 activities to create bouncy balls of all colours and shapes. Make a luminous ball and create an outside ball with elastic bands. Test your skill and dexterity.

Amazing crystal

2165

Cultivate 12 amazing and beautiful crystals: discover the instant crystal tree, make a crystallised jewel or grow a mega-crystal. Place your crystals on the luminous base and watch the light pass through them!

The activities use a microwave oven for greater speed and safety.

Dino Crystal

9009

Easily grow a large, colourful crystal dinosaur. Plunge the dinosaur into the crystallised solution and the crystals will grow after 48 to 72 hours. Includes: the dinosaur base, crystal powder, the growing beaker, globes and illustrated colour instructions.

Growth within 72 hours!

Buki France
Experimental Kits

Volcanoes and dinosaurs

2224

Discover 15 experiments you can do about volcanoes and dinosaurs: recreate volcanic eruptions at home, study volcanic rocks, make your own lava lamp, and dig up a Tyrannosaurus skeleton and then re-assemble it.

6 cards to discover volcanoes

Fingerprints

7101

12 experiments to discover the secrets of forensic science: find and compare fingerprints, analyse clues, construct a portrait of the suspect and write your own secret messages.

Buki
France
Experimental Kits

Sensory experiments

2169

A kit with 20 experiments to discover different textures: slime, fluffy, crystal, glitter, crunchy, galaxy... Customize your pastes, and use the included tools to shape them.

Included: a silicone mat to protect the table and play without messing.

MAKE ANIMAL SOUNDS

MAKE THE LEDS FLASH

TOUCH-SENSITIVE SWITCH

Electricity

Electricity lab

2172

An electricity set with 22 activities to make easy circuits without soldering and discover electricity.

How does a motor work? What is the difference between a series circuit and a parallel circuit?

Product in development
artworks, contents and activities not final

Electricity expert

7153

Create circuits and build 17 models: lighthouses, Ferris wheel, helicopter, and more.

A kit to understand and discover the basics about electricity.

More than 130 pieces required for circuits: rod, motor, battery box, connection wires, etc.

Please contact us for the availability of this item

Electricity

Gyroscope Robot

7509

Assemble the parts to build 6 different robots: spinning top, buggy, motorbike, roller coaster...

Works with a gyroscope: once activated, it balances the models and makes them move.

Please contact us for the availability of this item

Wind turbine

7400

A giant 90 cm wind turbine to assemble and set up in the garden. The wind turns the blades and the generator produces electricity to charge a battery (not included).

The electricity generated can power a self-assembly vehicle.

Please contact us for the availability of this item

Buki France
Robots
construction

ASSEMBLE THE WIND TURBINE

IT PRODUCES ELECTRICITY THAT POWERS THE MODELS.

Air power car

7502

Put the parts together and build a vehicle powered by compressed air. Simply use the pump to fill the compressed air gauge. When the indicator is at green, the vehicle is ready to set off!

8+

3 700802 101130

Please contact us for the availability of this item

Solar energy 14-in-1

7503

Assemble the parts and build a robot powered by solar energy. 14 models can be built, including a car, a crab, a boxer and a boat. The panel captures the sun's rays or a lamp of at least 50 W and transforms them into electricity.

8+

3 700802 101529

Please contact us for the availability of this item

Robots
construction

Hydraulic robot arm

7505

Build an articulated robot arm by assembling the parts. Pour water into the hydraulic system and control its movements in all directions with the 6 levers. It can carry objects weighing up to 50 g with its gripper or suction cup. No batteries required.

Please contact us for the availability of this item

180°

SUCTION CUP
+
GRIPPER

EASY
ASSEMBLY

Hydraulic cyborg hand

7508

Build an articulated cyborg hand by assembling the parts. Add water to the system and control it with your fingertips. The hand can be adjusted to carry objects such as balls or bottles. It can be adapted for both left-handed and right-handed use.

Please contact us for the availability of this item

Blaster Hand

7080

Assemble the parts and build a blaster hand working thanks to pneumatic energy. Put your hand inside the blaster and pump to fire the darts. The blaster works equally well for left-handed people and for right-handed people.

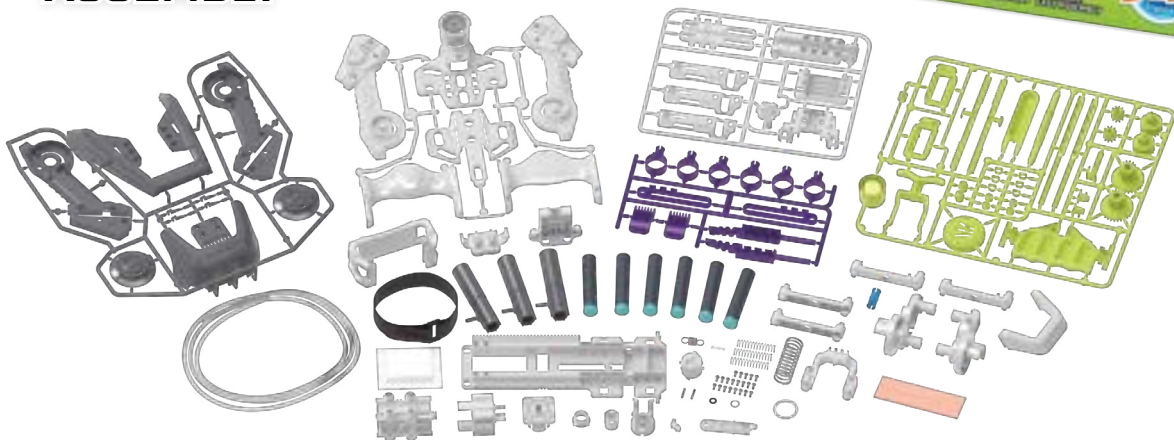

The barrels can be moved to attack from multiple angles. Two firing modes: precision and burst mode. Six darts are included. The blaster is compatible with most other foam darts.

Please contact us for the availability of this item

Expert Binoculars 10 x 25 mm

SP008

A pair of 10 x 25 mm binoculars for seeing 10 times larger! Focusing ring for clearer images and non-slip coating for a solid grip. Tinted lenses for more natural colours. The binoculars are compact and lightweight. Carrying pouch and cleaning cloth included.

Compact and light!

Carrying pouch

Expert Monocular 12 x 20 mm

SP009

A compact monocular for observing nature and monuments. 12x magnification, diameter 40 mm. Take photos easily with the smartphone adaptor and tripod. Easy to transport with the carrying pouch and cleaning cloth included.

Easy to carry!

Phone adapter

Tripod

Adventure climbing

BN016

An introductory kit for climbing in total safety.

6 straps and 12 holds to install quickly and easily around a tree to create adventure routes. The straps are attached with secure ratchets.

Up to 100 kg. Carrying bag included.

3 700802 104162

Buki
France

Nature

Handbow

BN015

A handbow for practising shooting in total safety. The mechanism and the sucker bolts ensure risk-free use.

Includes: 6 bolts and a portable target.

3 700802 104094

Metal bow

Safety trigger

Safe suction bolts

Slingshot

BN017

A slingshot to help you survive in the forest. Lightweight portable design. The child shoots a foam bottle that "explodes" when hit. Includes: 3 safe darts and spare elastic bands. Range: 20 m.

Blowpipe

BN020

A safe blowpipe with safe suction cup darts included. The blowpipe is lightweight and easy to carry everywhere!

Includes: 3 safety darts and 3 cardboard targets.

Terrarium

BL034

A terrarium for recreating the habitats of small animals: insects, snails, spiders, tadpoles, beetles, firebugs... Collect plants and stones with the tweezers to decorate your habitat.

Watch the animals with the removable x6 magnifying glass and the graduated x3 magnifying glass. Illustrated booklet with 6 example habitats to build.

Nature

Bug viewer

BL010

Tweezers to catch an insect and place it in the bug-viewer.

Thanks to the two zooms (x6 and x4), you can study the insects in detail.

Comprises handles for better stability. Possibility of examining the insects with a friend.

5+

3700802 100584

Bug vacuum

BL052

A vacuum to catch and observe insects without harming them!

3 speeds, 1 container and 2 nose cones.

6+

3700802 100591

Insect explorer kit

BL033

Catch, observe and learn about 5 different insects: flies, butterflies, ants, grasshoppers and ladybirds – through amusing anecdotes and experiments.

Globe

9010

An illustrated 20 cm globe that turns in all directions, for children to discover the world !

The map includes more than 300 drawings: animals, monuments, sports, culinary dishes...

What are the rules of the game? Find the drawing on the globe as quickly as possible!

The child draws one of the 300 cards, observes the drawing, turns the hourglass over, and must find the drawing before the hourglass runs out!

On the back of each card, the child will discover an anecdote or information.

Diameter: 20 cm. Metal base.

Included: 300 double-sided cards, and illustrated instructions.

GLOBE JUNIOR

Maths balance

5604

A balance to learn how to sort colours, weigh, and easily do maths calculations!

From the age of 3, children will be able to sort the tokens by colour by placing them in the matching coloured compartment. The instruction sheet includes counting exercises.

Then, they can learn about weights and balance using the two trays provided.

Older children will learn to count while playing! To find the solutions to the 60 puzzles, children must hang the weights to balance the scales and find the right answer! They can do all kinds of calculations: addition, subtraction, multiplication and division.

Included: a maths balance, 2 trays, 30 tokens in 6 different colours, 30 cards and an activity user guide for parents.

3+

Well done, that's the right answer!

Sort and count

Which is heavier?

Bingo junior

5602

Choose a card, designate a game master to do the draw, if the drawn ball appears on your card, place a token on it. The first to complete their grid wins the trophy!

10 double-sided grids, 30 balls and 60 tokens included.

3+

10 numbers,
10 animals and
10 colours

10
double-sided
cards

Step by step learning !

My first clock

5605

A clock with a system of questions and answers to help children learn to tell the time on both a clock face with hands and a digital dial.

Children choose a clock face and learn to tell the time step by step. The first ones show different times of day while the last one shows the whole clock face.

Once your child has learnt to tell the time they can insert the alarm unit inside the clock and they'll have a fully functioning clock - they can even set the alarm!

The clocks and dials help children learn to tell the time in both 24 hour and 12 hour (am/pm) formats.

Includes: 8 clock faces and dials, 100 questions/answers.

Learn to tell the time gradually with the different dials

Turns into a real alarm clock !

100 questions and answers

8 clock faces and dials for 24h clock
8 clock faces and dials for 12h clock (am/pm)

1

Put a card in

2

Say what time it is

3

Check your answer

BUKI Junior

Pick-up shapes

5606

Pick up the different shapes without touching the rim and see how many you can collect!

If the tweezers touch the metal rim of the tray, a light comes on and a buzzer sounds. Each shape comes in 3 different sizes, for 3 levels of difficulty.

There's a timer so that children can time themselves when playing alone. If two people are playing, the one to get the most shapes without sounding the buzzer is the winner.

Children learn the names of the shapes and colours as they prepare the cards with the stickers provided.

Develops fine motor skills

3 sizes = 3 difficulty levels

My writing tablet

5607

A tablet with LCD screen for learning to write the letters of the alphabet in capital letters and lower case cursive letters, as well as numbers from 0 to 9. Plus, learn to draw curvy and straight lines.

The child puts a sheet under the tablet and practices by tracing the lines on each sheet. Erase by simply pressing the button! Write using the stylus like a pen. Add the grip to learn how to hold the pen correctly. This grip can also be used on one of your own pens.

The tablet can also be used to draw and even copy other drawings thanks to the transparent screen.

The tablet weighs only 100g and is easy to carry. Dimensions: 22 x 14.5cm.

20 cards for a total of 40 sheets: 26 letters of the alphabet, numbers from 0 to 9, 4 sheets with lines.

Learn to write letters and numbers and draw lines!

900g of soya wax

Decorate your natural candles!

Professional Studio Candles Refill

5423

Use soya wax to create natural candles! You can melt this wax in the microwave or in a bain-marie! 8 coloured wax crayons and cotton wicks are also included.

The soya wax can be used with the set "Professional Studio Candles".
Weight: 750 g

7+

Professional Studio Pottery

5426

A real potter's wheel specially designed for children! The instruction sheet tells you how to make a bowl, a pot or even a plate that can then be decorated! 2kg of air-drying clay is provided. Two blocks of clay: one light-coloured, one brown.

The key to success? A cutter to measure out the amount of clay needed and centre it on the wheel to start the creation.

Once the piece has been created, simply move the drawer and place the tray there so that your creation can dry and then be decorated! While drying, the studio can be safely washed as it has a removable electric motor.

The potter's wheel only works with the EU mains adapter provided to ensure the correct motor power is applied.

Many accessories included for creating and decorating: 2 kg of clay, wooden and metal tools, glitter, diamanté, stamps, two brushes, tubes of paint, and more.

8+

3 700802 103509

If other mains adapter is required, please contact our team.

Wooden tools

2 kg of clay

A real pottery studio specially designed for children!

Leave to dry and then decorate!

Professional Studio Pottery Refill

5431

Use clay to create things on your potter's wheel.

One 500 g light-coloured block and one 500 g brown block, as well as a zip-up storage bag are provided. The clay air dries and does not require baking.

This clay can be used with the Professional Pottery Studio set. Weight: 1 kg.

8+

3 700802 104957

Professional Studio Engraving

5427

A safe workshop for engraving on wood and metal. Create and personalise 5 magnets, 5 key rings, 10 necklaces, and 1 bookmark!

The woodburning tool is equipped with a guard to prevent burns, a thermostat to adjust the temperature, and an ON/OFF key. Adults can use a pair of tweezers to safely attach one of the 6 tips to engrave different designs!

The metal engraver can be used to draw designs on metal plates that can then be turned into jewellery or key rings!

Many accessories included for creating and decorating: felt tips, glitter, diamanté, glue, pair of tweezers, metal and wood shapes, chains, rings, clasps, etc.

The woodburning tool works on AC power [EU plug], and the metal engraver requires 2 LR06 batteries, not included.

If other mains adapter is required, please contact our team.

A safe station for engraving wood and metal!

Professional studio Engraving Refill

5434

A refill for the Professional Studio Engraving Studio set, to create new engravings on wood and metal. Create and personalise 5 magnets, 5 key rings and 10 necklaces!

The accessories can be used with the «Professional Studio Engraving Studio» set (ref. 5427).

Professional Studio 3-in-1 light pad

5432

A portable light pad that can be used to draw, trace, and create comics and even flipbooks!

Drawing feature: Place a template on the pad, then a clean sheet of A5 paper on top. Use the LED light to trace the template – or just to light up your creation!

Comic/manga feature: Take a sheet, use the stencils to create blank comic book pages, then draw, add stickers and write your stories.

Flipbook feature: Place the adapter on the tablet.

The pad is portable and can be used flat with the 4 feet, tilted using the stand in the centre, or placed on your knees.

Paper size for comics and mangas: A5 - 21 x 14.8 cm.

Paper size for flipbooks: 11.4 x 6.5 cm.

A variety of accessories: 30 x A5 sheets, 100 sheets for flipbooks with a clip and a cover, 2 sets of stencils, 4 sheets of stickers, 1 case with 12 standard felt-tips, 12 brush pens, 12 watercolour pencils, 1 paintbrush, 1 gold gel pen, 1 silver gel pen, 1 fineliner pen, 1 pencil, 1 rubber, 1 ruler, 1 pencil sharpener.

Including painting and drawing accessories!

Portable A5 tablet!
3 possible positions to draw.

Includes stickers and stencils to customise your comics

1

Trace and draw

2

Bring your drawings to life

3

Create comics and mangas

Professional Studio Beauty

5421

Make beauty products using cooking ingredients!

Use the mixer to prepare shampoo, lotions, masks and creams, then pour them into different bottles. Use pre-measured sachets to make bath bombs that you can personalise with dried flowers!

Discover 15 recipes and the benefits of the ingredients used in the instruction sheet with colour illustrations.

Professional studio Couture expert

5409

A sewing machine to help you learn the basics of sewing and create 6 trendy projects: a bookmark, a key ring, a storage basket, a pouch, a purse and a pincushion!
 The speed of the machine is perfect for children, offering two automatic speeds and pedal mode. Users can choose between 12 different stitches, including zigzag stitch to oversew fabric. This machine has been specially designed for children, featuring a large work area, a needle guard, and easy threading and tension control! Each of the fabrics used in these projects has a different texture: fur, coated cotton, jersey, cotton, felt, and imitation leather.
 Several accessories, including metal spools and spare needles for the machine, are included. How to make the clothes and the basics of sewing are explained step-by-step in illustrated instructions featuring QR code links to video tutorials!

Professional studio Drawing kit

5436

This drawing set provides children with all the materials they need to develop their creativity!

Children will be able to draw and paint their work in watercolours on the sketch pad provided.

The 2 refillable water brushes make it easy to paint with the 12 cakes of paint, and the crayons and pastel crayons are easy to use too.

The sketch pad slides under the elastic bands on the pencil case and all the materials are stored in the interior compartments. The case closes with a zip and the handle means you can take it anywhere!

The pack contains 12 cakes of paint, 24 double-ended felt-tip pens, 18 watercolour crayons, 8 oil pastels, 12 glitter gel pens, 1 HB pencil and 1 2B pencil and lots of accessories.

Size of case: 23 x 33 cm

Sketch pad: A4 - 35 detachable sheets - 300 g

A digital camcorder easy to handle so that the child can immortalize its most beautiful memories in video or photos!

The camcorder is compact, light (300g), and easy to hold thanks to its adjustable handle. The 7.5 cm diameter HD colour screen can be rotated, which allows you to turn the screen and switch to selfie mode.

The camcorder has a x16 zoom. The child can connect the camcorder to a computer to use it as a webcam. A fill-in flash is included to improve video quality in the dark.

A 16 GB SD card is included, to film up to 45 minutes in 1080p. Photo quality is up to 24 megapixels. The menu of the camcorder allows you to select the different resolutions.

Included: a 16GB SD card, pouch, remote control, strap and USB-C charging and transfer cable. A microphone jack and a slide are provided, if the child wants to add a flash or an additional microphone.
